A SILVERY LINING.

Such is the Condition of the Financial Clouds.

THE ONE GREAT QUESTION.

An Extra Session of Congress Demanded by the Present State of Affairs—Congressman Bland Interviewed—He Says the Whole Thing is a Goldbug Conspiracy to Bulldoze Our Congress.

WASHINGTON, June 29.—The advocates of free coinage are visibly disturbed over the action of the authorities in India, in stopping the unlimited coinage of silver. It is evident that they regard this as a serious blow at their pet theory, and that the logical effect will be to strengthen public sentiment in this country favorable to the early repeal of the Sherman act. Recognizing the growing sentiment for the repeal of that act, the free coinage leaders have become alarmed and have been making arrangements for a concerted movement, intended to counteract the progress of this feeling.

Headquarters are to be established in this city and missionary work is to be organized for operation among members of congress who have heretofore co-operated with the free coinage men and who have recently given indications of a purpose to vote for repeal.

A. J. Warner of Ohio, one of the leading free coinage crusaders, who is here to further this movement, in his utterances on this subject, shows how general is the alarm among the silver men and how it pervades the whole silver camp.

The president has received numerous letters and telegrams from business men and commercial associations throughout the country urging that congress be convened at the earliest day practical, but, unless a financial crisis should threaten, the date fixed for convening congress will not be changed.

So far as can be judged from present indications there is no reason to apprehend imminent disaster, and beyond adding 9,000,000 ounces of silver bullion to the stock now held by the treasury, the situation is not likely to be seriously changed by the stoppage of silver coinage in India. On the contrary there are many who believe this stoppage will be beneficial to the cause of sound money.

This change from an unsound to a sound financial policy must result in the quickening of business in India and an advance in the price of all its products with a corresponding advance in the staple products as well as the securities of the United States which would be still farther advanced by the repeal of the requirements for the monthly purchase of silver bullion in this country.

In stopping unlimited silver coinage India has simply applied the only remedy against the great depression that has been suffered so long in that country in consequence of persistently adhering to a vicious system. To a limited extent the same suffering prevails in the United States and from similar causes, and the same remedy must produce like results in both countries. The United States can no longer sustain silver now that India has withdrawn its support, and this fact must be apparent to all thinking men who are not owners of silver mines.

CONGRESSMAN BLAND INTERVIEWED

The Great Silver Advocate Talks on the Silver Question.

St. Louis, June 29.—In an interview Congressman Richard P. Bland of Lebanon gave his opinion that the suspension of free silver coinage in India would have a serious effect on the financial policy of this government and more especially the silver advocates. He said:

"Heroic measures will be required on the part of this government for the demonetization of silver. The demonetization is meant by its authors to have an effect upon our legislators in favor of a gold standard. There may be some timid persons who will be influenced thereby. Most emphatically I do not think it is a knockout for silver in this country. On the contrary I think that if congress does not adopt some measure looking to a bimetallic standard, it will make the battle of standards the coming issue in this country. This battle will disrupt political parties and cause a contest between the commercial centers and the agricultural districts of the country. The demonetization of silver is a conspiracy between the banking institutions of England and the eastern portions of the United States, and the suspension of silver coinage in India is part of this conspiracy to bulldoze the congress of the United States into the adoption of the single gold standard. I do not believe that they will succeed."

THRO' MEXICAN SPECTACLES.

The Greasers Want This Country to Force Bimetallism.

CITY OF MEXICO, June 29.—The tremendous drop in the price of silver bringing exchange on New York to 60 percent has created much discussion among Mexican bankers. They generally regard the present situation as offering a great opportunity for the United States to force bimetallism upon Europe. It is suggested by one man that the United States might issue a gold loan of \$500,000,000 4-1/2 per cent bonds, which, it is said, would be immediately taken up in Europe, where all other government securities would immediately drop heavily, not being able to compete with American bonds. Then, according to the theory, gold would flow into the United States, and

in a short space of time bimetallism would have to be adopted by Europe and the enormous quantity of silver held by the American treasury would rise in value, the whole transaction being immensely profitable to the United States. It is said here that if nothing is done to bring about bimetallism all the silver using countries will begin manufacturing for themselves and the United States and Europe will lose enormously in their foreign trade. The United States, it is urged, could afford to undertake a gigantic financial operation, being able to feed it, and has now a wonderful opportunity to settle the silver question permanently.

How It May Affect Wheat Exports.
NEW YORK, June 29.—A morning paper editorially discusses the Indian silver situation in doubleheaded type, saying in part: "As to the diminution of the exports of wheat from India to Great Britain in consequence of thus arresting the diminution of the value of the rupee, which so many predict, there is no ground for expecting it. Wheat is exported from India to London not because of its low price in India, but because London is the best market for it; and it will continue to be exported thither so long as it brings there more than the cost of transportation."

The idea that the price in London will advance, and the American wheat grower thus be benefited, is equally chimerical. India never has supplied Great Britain with more than one-tenth of the wheat she consumes, and for the first five months of this year it has been able to send thither only 989,842 hundred weights, against 4,747,576 hundred weights for the first five months of 1892. India's importance as a competitor in this respect with this country has been ridiculously overestimated, and is likely to become less rather than greater."

Silver in Mexico.
WASHINGTON, June 29.—A rumor is current in the treasury that Mexico contemplated stopping the free coinage of silver. It could not be traced and is not generally credited. Minister Romero said that he had no information to that effect, and did not believe that Mexico could afford to stop the free coinage of silver. He therefore placed no credence whatever in the report. He declined to forecast the effect of the action of India in stopping the free coinage of silver, but said that it was a very serious matter.

OHIO PROHIBITIONISTS.

Principles of the Platform as Adopted by the State Convention.

CLEVELAND, June 29.—The state prohibition convention was opened at 9 a. m. by prayer, Rev. H. L. Cuddeback. A number of ladies were present as delegates. J. W. Sharp of Richland county was made permanent chairman. Rev. Rathburn of Clark secretary. Miss Linette Moore and Charles E. Holt of Ashtabula county assistants.

A sharp debate occurred over the question of allowing a short delegation full vote, which was decided in the negative. The platform presented recognizes God as the source of all just government; rejects all liquor legislation, except that which is prohibitory; declares for female suffrage, government issue of all money as full legal tender, prohibition of alien ownership of land, and limitation of area owned by any individual or corporation "defensive" tariff income taxes; government control of railways, telegraphs, etc.; demands that Sunday be made a day of rest; favors stricter immigration laws, more liberal pensions, opposed sectarianism in public schools; wants salary instead of fee system; election of civil officers directly by the people, and opposes increases of local indebtedness. It was adopted.

The afternoon session of the convention nominated for governor Rev. George B. Macklin of Germantown, Montgomery county. For lieutenant governor, S. H. Ellis of Warren county was nominated.

ALABAMA COAL MINERS

Threaten to Strike—Not Likely to Be at All Serious.

BIRMINGHAM, Ala., June 29.—It is probable that there will be a coal miners' strike in this district on July 1. It remains to be seen whether all the 10,000 miners in this district will be affected by it or only part of them.

On July 1 of each year the contracts between the miners and mine operators expire. These contracts are always renewed or new ones entered into. For the past three years there has been no friction in entering these contracts. For this year such is not the case.

The strike that is expected to take place next month cannot, according to calculations, be general in scope nor long in duration, nor so very disastrous in results. The coal trade is always dull at this season of the year, and the mine operators are not particularly anxious whether the output is large or small.

The operators, in fact, are manifesting very little concern over the situation. They say that the selling prices of iron and coal warrant them in paying no more than the figures they name, and they feel confident of obtaining men who are willing to work for these prices. The miners declare that they are working as cheaply as they can well afford, and that the reduction is an injustice to them. There is hardly any doubt that the strike will occur. Its extent and effect remain to be seen.

Bank Closed Up.
WASHINGTON, June 29.—Comptroller Eckels is informed that the Second National bank of Ashland, Ky., has closed its doors to business. The bank is a small one, its capital stock being only \$50,000. Bank Examiner Escot has been placed in charge.

AT THE WORLD'S FAIR

How Things Are Going at the White City.

THE ATTENDANCE INCREASING.

The Delightful Weather Is Bringing Out a Multitude Every Day—Preparations for Miller's Day—An Accident in the Decoration Building—Other World's Fair News.

CHICAGO, June 29.—A bright, clear sky and delightfully cool weather greeted the visitors at the world's fair and tens of thousands of them took advantage of it. There was scarcely a break in the streams of people that poured in at the numerous gates.

Miller's Day.
Today is millers' day. It will be especially attractive to flour manufacturers, as exercises of an interesting character will be held in the Michigan state building. Among the prominent millers on the ground are J. M. Turner of Mandan, N. D.; T. S. Bliss of Seymour, Ind.; C. A. Pillsbury of Minneapolis; J. F. Clark of Akron, O., and H. F. Ozick of Amsterdam, Holland.

It is estimated that these millers alone manufacture half of the bread-stuffs used in the United States.

The meeting will be presided over by E. O. Stannard, Hon. J. Sterling Morton is down for a paper on "The Extension of the Export Trade in Flour."

General John W. Noble is expected to be present and if he arrives he will deliver an address. D. R. McGinnis of North Dakota, the first promoter of the reciprocity movement in the northwest, will speak on "Reciprocity With Canada—What It Will Do For Milling."

Addresses will also be made by T. A. Taylor and M. H. Davis.

The Michigan millers met in their state building. W. B. Knickerbocker, president of the state association, presided, and an interesting program was carried out.

Accident Without Fatality.

An accident, attended with many narrow escapes, but luckily without fatality, occurred in the world's fair grounds yesterday evening. At 5 o'clock about 200 men employed in the color department, met in the second story of that building to do honor to their chief, H. D. Millett, superintendent of decoration, and E. D. Allen, foreman of the shop. A handsome silver tea set was presented to Mr. Millett, and Mr. Allen was given a beautiful punch bowl.

As the speech making was concluded, the men started for the stairway which led to the floor below. Suddenly that portion of the floor nearest the stairway gave way and landed its load on the floor below. The fall was not over 18 feet and this no doubt saved many lives. It was found that 13 were in need of assistance. Albert Williams sustained a compound fracture of his right leg, near the hip.

MUSEUM ON BOARD OF THE BATTLESHIP ILLINOIS.

PRESIDENTIAL APPOINTMENTS.

The Chief Executive Fills a Number of Important Offices.

WASHINGTON, June 29.—The president has appointed Commodore Aaron W. Weaver to be a rear admiral in the navy, vice Rear Admiral David B. Harmon, retired.

The president also made the following appointments:

To be United States consuls—H. Clay Armstrong, Jr., of Alabama at Grenoble France; John B. Laquette of Louisiana at Martinique, West Indies; Samuel Tanhouse of Georgia at Matamoros, Mexico; William C. Emmett of New York at Aix La Chapelle, Germany.

James Sheakley of Alaska to be governor of Alaska.

George W. Snow of Salt Lake City to be surveyor general of Utah.

Joseph C. Stranghan to be surveyor general of Idaho.

Charles F. Easley to be surveyor general of New Mexico.

Receivers of public moneys: Thomas H. Corbett of Kentucky, at Guthrie, O. T.; Preston A. Griffith, at Sidney, Neb.; Eugene B. Thayer, at Wausau, Wis.; Pedro Deldado, at Santa Fe.

Registers of land offices: Bushrod M. Dilley of Missouri, at Oklahoma, O. T.; Thomas J. Lowe, at Guthrie, O. T.; John M. Adams, at Sidney, Neb.; J. W. Ferguson, at Grand Island, Neb.; Louis Marchetti, Wausau, Wis.; Byron Groo, at Salt Lake City; Benjamin F. Wilson, at LaGrande, Or.; James H. Walker, at Santa Fe.

The following postmasters were appointed:

Alabama—Ozark, Joseph H. Adams. Indiana—Columbus, Thomas A. Rush. Fort Wayne, W. W. Rockhill. Kansas—Osage Mission, M. Devine;

Mississippi Watter valley, H. F. Crosby. Montana—Billings, Edward W. Dunne. North Dakota—Cooperstown, William C. Jameson. South Dakota—De Smet, John Hayden. Wisconsin—Superior, Joseph D. Conan.

John E. Bright of Baraboo, Wis., has been appointed chief of the mineral division of the general land office.

SUMMARILY FIRED.

The Dishonest Collector of Customs at Portland, Or.

WASHINGTON, June 29.—The president has summarily removed from office Mr. Lotan, collector of customs at Portland. The unusual action of the president was taken on the receipt of a telegram from special agents of the treasury department, who have been engaged for some time in investigating the fraudulent practices prevailing in the Puget Sound and Portland district.

The telegram stated that they had information of the intended landing at Portland of a large number of Chinese coolies. Some weeks ago Mr. Lotan was still in charge of the office. On his summary removal his deputy was placed in charge and will continue to act until Mr. Black, the new collector, qualifies. His bond is now on the way to Washington.

On June 15, Collector Lotan, in disregard of official instructions from the treasury department, landed from the steamer Danube about 250 Chinese, claiming to be merchants, but who were described in an official report to the department as "a scaly and uncountable lot of coolies."

The Chinese coolies now expected are on board the steamer Haytian Republic en route to Portland, and, it is believed by the department, that if Collector Lotan had been left in office he would have landed the Chinese from the Haytian Republic without regard to law as was done in the case of the Danube.

As far back as March 3 Collector Lotan was instructed by Assistant Secretary Spaulding as follows:

"It is ascertained that many Chinese enter the United States upon fraudulent papers, certifying them to be returning merchants. You will hereafter disregard such papers and refuse entry unless it is proven to your satisfaction that the persons presenting them have the right to land."

Since that time many hundreds of Chinese have landed at Portland upon bogus affidavits and certificates.

A STILL AND THREE CHURCHES.

The Divided Labors of a Minister Are Halted Altogether.

ATLANTA, June 29.—United States Commissioner Gaston has bound over for trial on a charge of moonshining, the Rev. Dr. Barrett of Banks county. Mr. Barrett had charge of three Baptist churches and one illicit distillery. With characteristic patience and respect, the revenue officers who went up to Banks county to arrest him refrained from executing their commission when they found him engaged with his religious work. They allowed him to fulfill his engagements and preach on Saturday and Sunday. When he was quite through they suggested that he would better come to Atlanta and give the courts a sample of his eloquence. The reverend gentleman's still cap was found secreted in a cornfield, and three gallons of fresh blockade corn was discovered in his house.

Farragut Statue Unveiled.

BOSTON, June 29.—The statue of Admiral Farragut was unveiled in the Marine park, South Boston, Wednesday afternoon, amid the booming of cannon, the screeching of steam whistles, the music of bands and the cheers of the immense crowd which had gathered to witness the ceremony. In the harbor assisting with their guns and colors were the Russian warship Rinda and Dimitri Donskoi and the United States cruiser San Francisco and the dynamite cruiser. The oration was delivered by ex-Governor Alexander H. Rice.

Puddlers Strike.

PITTSBURG, June 29.—Two hundred puddlers, employed in Spang, Chalfant & Company's ironworks at Etna went on a strike. The trouble began two weeks ago when several puddlers were discharged. The demand of the workmen that their associates be reinstated was unheeded. Several fruitless conferences between the firm and employees have been held on the subject. The strikers declare they will not return, while the firm say they will have all the men they can use as soon as they are prepared to commence work again.

They Will Try Only One Man.

LONDON, June 29.—Captain Bourke, the senior officer, among the survivors of the warship Victoria, will be tried by a special naval board, sitting at Malta, for having lost the vessel. Further proceedings will depend upon the event of this trial. No steps will be taken in the matter of court-martialing Rear Admiral Markham and the officers of the Camperdown until after the end of Bourke's case.

Shipload of Hay For France.

NEW YORK, June 29.—Last week the dispatches told of a fodder famine in France, and the statement came that foreign fodder would find a quick high market if delivered soon. The American instinct "caught on," and a chartered vessel lies in the East river taking on a full cargo of 1,903 tons of hay to be shipped to France.

Death of an Ex-Congressman.

COLUMBIA, S. C., June 29.—Ex-Congressman Wallace died at his home near Yorkville, yesterday. He represented the state in the reconstruction period.

HAWAII HEARD FROM

Another Vessel Arrives From Honolulu.

THE VERY LATEST ADVICES.

Annexationists Satisfied with the Present State of Affairs—Minister Blount Criticized—Claus Spreckels Still a Royalist. England May Yet Be Called on to Settle the Hawaiian Problem.

SAN FRANCISCO, June 29.—The steamer Australia has just arrived from Honolulu bringing the following advice:

President Cleveland's reply to Mr. Thurston was received June 20, and is very disappointing to Royalist. The annexationists regard it as implying a serious doubt as to the general propriety of annexing so remote a country as Hawaii and one of such heterogeneous population. President Cleveland's language they consider to imply a doubt also whether the wishes of the people of Hawaii are in favor of annexation. They are confident that any scruple of this sort will in good time disappear. On the whole they are much gratified with Mr. Cleveland's expressions.

There is strong evidence for the belief that by the mail of June 14th, Minister Blount was advised by Secretary Gresham that he was in error in protecting Nordhoff; that the Cutting precedent was not applicable since Nordhoff's statements were written in Honolulu, whereas Cutting's were written where they were published, and that Minister Blount was instructed to turn Nordhoff over to the mercy of the Hawaiian government and did so but that President Dole suppressed the matter in order to spare Blount's feelings.

Minister Blount was invited to deliver the oration on July 4, but declined. The orator will be W. W. Kinney. Blount's action is severely criticized by the American colony. Not only has he refused to attend the preliminary meeting, but he has also refused to address his countrymen as part of the exercises on the Fourth.

His excuse is that the political situation here is peculiar. It is charged that during his recent trip he was entertained by the Royalists and listened to their speeches.

Claus Spreckels gave a dinner in honor of his son's return from China. It was a Royalist affair, though politics were not mentioned.

The desire to make overtures to England before settling on a protectorates, seems to grow in favor.

Claus Spreckels's Opinion.

SAN FRANCISCO, June 29.—Adolph B. Spreckels returned from Honolulu on the steamer Australia. He says the provisional government is bankrupt and that the only solution of the welfare of Hawaii is the return of the queen to power.

SIXTY-FIVE YEARS IN OFFICE.

A Postmaster Who Stands Well With All the Presidents.

TROY, N. Y., June 29.—Yesterday was a proud day for Postmaster Roswell Beardsley of North Lansing, Thompson county. Sixty-five years ago, or, to be precise, on June 28, 1828, he received his commission as postmaster from President John Quincy Adams. He has held the office ever since without interruption, and is still doing business at the old stand. He was in his 19 year when he received his appointment and is consequently 84 years old. His unbroken service is the longest in the history of American officeholding.

Five years ago, when his commission had reached its 60th year, he was offered a large figure for the document by the New York Geographical society. The offer was refused. The old gentleman between his postoffice and his country store, known as Beardsley's Corner, has amassed an independent competence. In his last quarterly return to the postoffice department he referred to the fact that he had mailed letters for some of the families in his neighborhood for five generations.

For many years the revenues from the office did not exceed \$20 annually, and it was considered a big thing when the coming of a railroad increased this to \$60. Like Senator Hill, Postmaster Beardsley loves to proclaim, "I am a Democrat," but it has been many years since he manifested any pernicious activity.

THE THIEF JUMPED OFF.

Conductor Catches a Man Picking a Passenger's Pocket at Lima, O.

LIMA, June 29.—As west bound passenger train No. 3, on the Chicago and Erie road, was pulling through Lima, the conductor noticed a man go through the pockets of another passenger asleep in the last coach. The train was then about one mile east of Lima.

The thief realized that the conductor had detected the deed and made a dash for the sleeper. The conductor followed, but the thief jumped from the train, which was running no less than 35 miles an hour. The passenger's pocketbook, containing a large sum of money, was gone. The robbery was reported to the police at this station.

Drouth in Mexico.

ST. LOUIS, June 29.—A special to The Chronicle from San Luis Potosi Mexico, says: The drouth which has prevailed here for the past five years was broken yesterday by one of the greatest floods that ever visited this section of the Mexico. The streets for several hours were converted into rivers and all the lower part of the city along the Mexican National railroad is inundated. Many houses were swept away.

WEATHER INDICATIONS.

Increasing cloudiness and showers in the afternoon and evening; warmer, east winds.

SPEAKING of the commencement concert of the Baur Conservatory of Music, Professor Van Cleave, in the Cincinnati Post, says: "The singing was also excellent, two of the vocalists deserving especial prominence of mention, namely Miss Stella Charles and Miss Ida Pierpont. Both these young ladies illustrated Miss Baur's ideas of clearness, steadiness and vibrant resonance of tone, and their singing was not marred by either bad intonation or the huskiness or tremulousness which comes from fright."

ATTENTION is called to the advertisement of Mr. J. Allen Dodson. He has opened a choice stock of staple and fancy groceries at 142½ West Second street, adjoining Daulton's stable, and will give prompt attention to all orders. He is a son of Mr. Joseph H. Dodson, and enjoys the distinction of being the youngest merchant in Maysville. He is an industrious and straightforward young man and displays unusual business ability for one of his age. The BULLETIN bespeaks for him a liberal share of the public patronage.

THE Red, White and Blue Pic-nic Club gave a very enjoyable picnic yesterday at the grounds of the club four miles east of Maysville, in honor of Miss Kemper, of Walnut Hills, Miss Baldridge, of Covington, Miss Lawrence, of Nashville, Tenn., and Miss Miller, of Atlanta, Ga. The day was spent very pleasantly notwithstanding the terrific hailstorm. The club are under many obligations to the chaperones who contributed so much to the enjoyment of the occasion. They were Miss Carrie Hays and Miss Emma Campbell. Those present were Misses Kemper, Hall, Lawrence, Baldridge, Thomas, Owens, Ross, Burgess, Robinson, Darnall, Cagle, Watson, Miller and Barkley and Messrs. J. H. Hall, Noel, Worrick, T. J. Hall, A. Wadsworth, W. W. Wells, W. R. Kemper and S. P. Browning.

ECKELS' NEW PLAN.

The Policy of Making Stockholders of National Banks Immediately Responsible.

A recent special from Washington says: "Controller Eckels has adopted a new policy in regard to assessing the stockholders of failed national banks. His plan is to ascertain as speedily as possible the amount required to make good the loss of depositors and then to assess the stockholders for the amount."

"Heretofore it has been the custom of the Controller's office to wait until all the assets of the bank had been realized upon before calling upon the stockholders to make good the deficiency. The result has been in many cases that unscrupulous stockholders have put their property out of their hands, and in many cases expensive litigation has followed in the effort to recover something for the depositors from the stockholders. The average time which has elapsed between the failure of a bank and the assessment of the stockholders under the system which has heretofore prevailed has been two years. Under the new plan it will hardly be two months."

"The new plan was first announced in the case of the Commercial National Bank of Nashville. It was a bad failure, and the Controller fixed the assessment of the stockholders at 100 per cent. Naturally this took their breath away. When they recovered their voices they set up a chorus of protests. They insisted on the old two years of grace. The Controller declined to rescind his order. A representative of one of the stockholders tried to convince the Controller that he was making a mistake of monumental size. He pleaded long and vigorously, but all in vain."

"This rule is calculated to have the same effect upon the stockholders as would a law requiring railroad directors to ride on the locomotives of their trains. It will make them more careful about the speed. Failed banks have usually gone at too fast a pace."

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

Low Rates For the Fourth.

On July 3 and 4 the C. and O. will sell excursion tickets between all points at one fare for the round trip. Tickets good returning until July 5. There will be a grand Columbian celebration at Cincinnati and attractive programmes at other places along the line.

FOURTH CLASS CITY CHARTER.

It Awaits the Governor's Approval. Doings of the Kentucky Legislature.

A special from Frankfort to the Covington Post says the charter for cities of the fourth class is now before the Governor awaiting his approval, together with the charter for first class cities. Governor Brown informed the Post correspondent that the chances are 99 to 1 that he will approve the bills, so Maysville will likely have a new charter at an early day.

The Senate refused to concur in any of the House amendments to the second class city charter bill and a conference committee was appointed.

The Senate has passed the House bill providing for the employment of an official stenographer for courts in counties having not less than 75,000 population. The Senate rejected the House bill requiring railroads to fence their right of way.

Mr. Peak's bill prohibiting the formation of trusts or combinations was rejected on the ground that other legislation has already been perfected which covers the matter.

The House Judiciary Committee favorably reported the bill prescribing penalties for violation of section 201 of the Constitution, which prohibits the consolidation or pooling of parallel transportation lines within the State.

The bill relating to State Library and Librarian was again taken up. Mr. Hank's amendment fixing the Librarian's salary at \$1,000 per year was adopted. The amendment providing for the biennial appointment of a Librarian by the Court of Appeals Judges, previously rejected, was left in that position by the defeat of a motion to reconsider the vote thereon. The bill as amended was then passed.

Mr. Halbert offered a resolution for the expulsion of Representative Charlton, of Louisville, unless he shall return and make good his alleged charges of bribery and corruption in the capital removal contest. Mr. Pettit supported the resolution, urging that he and other members were not willing to rest under the imputation.

Cows Milked by Fish.

Joe Mulhatten is evidently located at New Hope, Pa. A dispatch from there says: "Michael Thierman, for several months, or ever since the weather grew warm, has noticed that his cows return from their luxuriant pastures with full stomachs and empty udders. There was a suspicion that the cows had been milked by families who reside in the neighborhood. This thing continued and Mr. Thierman's dairy product reached zero. He watched his cows, but could not discover the milk robber."

Thursday he had a startling revelation. He was standing by the mill race which runs through his farm when he saw his favorite cow enjoying herself in the water, which touched her body. After a prolonged bath the bovine emerged from the stream, and clinging to the animal's udder was a carp that weighed about fifteen pounds. It had drank every ounce of the cow's milk. Mr. Thierman says that the cows have gone regularly to the mill race to keep cool and the fish have as diligently extracted their milk.

The Tobacco Crop.

Says the Winchester Democrat: "The impression that has obtained prevalence in the tobacco centers that there is a very large increase in the crop of the burley district is wrong so far as Clark and adjoining counties are concerned. In the first place but few new barns have been built in the county; on account of the late wet spring the ground was not in condition for planting and a considerable quantity of the ground intended for tobacco is not yet planted and it is now too late to make much of a crop; the cut worms were worse than ever before known, and out much of the ground set there is a poor stand. A number of our tobacco men at Mt. Sterling Monday report a similar state of affairs in Montgomery County, and agree that the output of this year will be less than in 1892."

County Court.

W. A. Schatzmann & Co. were granted license to retail spirituous, vinous and malt liquors.

The annual report of the Washington and Clark's Run Turnpike Company was filed. Total receipts, \$1,242.40; expenditures, \$1,181.24, leaving a balance of \$61.16.

The last will of Edward K. Owens was filed, partly proved and continued. John L. Chamberlain qualified as guardian of Minnie and Emma Smith, with J. Wes Lee and W. T. Martin as sureties.

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere

GERMANTOWN.

J. A. Walton has returned from Chicago. Our town has been thronged with visitors for the last few days.

Mrs. Nancy Williams, of Fleming County, is visiting Mrs. Fowler.

W. O. Dimmitt accompanied the party last week to the World's Fair.

Mrs. Mary Bell, of Fleming County, is at her sister's, Mrs. A. Williams.

T. J. Winter and wife, of Maysville, spent several days here with friends.

Mrs. P. B. Johnson and grandson Robert, of Covington, are at W. C. Johnson's.

Mr. Samuel Proctor and children, of Shannon, are guests of D. Norris and family.

Miss Clara Staton and sister, of Helena, are guests of Miss Florence Armstrong.

Israel Killpatrick and family, of Murphysville, and other relatives, are at Mrs. Phebe A. Pollock's.

Elder McClellan filled his appointment on Sunday, and will spend the remainder of the week among his flock.

James Pollock, with Misses Robbie Savage and Daisy Pollock have gone with the excursion to Charleston, W. Va.

A. P. Stiles and wife, formerly of Maysville, are at his father's, accompanied by their daughter, Nellie, and husband.

Miss Carrie Riggs, of Richmond, Ind., will spend the summer with relatives, much to the delight of a recent graduate of Kentucky University.

The Masonic picnic was well attended, receipts at the gate amounting to \$90. Isn't it strange when called on to give for a religious or charitable entertainment how reluctantly people will promise a layer cake, or a dish of salad, and yet stand by complacently and see their fat muttous, and fatter hens, and roast beef, and fried chickens and big cakes disappear before a hungry and promiscuous crowd like melting snow? If the BULLETIN readers don't see the force of this let them inquire of our Mason County housewives.

Special premiums were awarded in music to Miss Agnes Marie Dodson.

A special premium in music was presented to Miss Helena Hynes by Rev. J. B. Glorieux.

A special prize for mandolin was won by Miss Mae Kathryn Burgess.

The gold medal for christian doctrine was presented to Miss Helen Bowden by Rev. George Bealer, of Nicholasville.

The gold medal for mathematics was presented to Miss Helena Hynes. Miss Hynes received 100 per cent. in every examination, of the most rigid character.

The gold pens for penmanship were awarded to Misses Willia Bowden and Bessie Ryan.

The musical numbers of the programme were especially gratifying, and must have been a source of pride to the parents of the pupils as well as to the

community. Compared with the best product of some of the famed conservatories of the country, the music pupils of the Visitation Convent suffer nothing by comparison. Space forbids an extended reference to all that was worthy in such a rich and lengthy programme, but amongst the most notable successes were the selection from the "Don Juan" of Mozart for two pianos, by Miss Mary Thomas Cox and Miss Agnes Marie Dodson. This was remarkable for beauty of phrasing and poetic conception. Another number, the difficult "Staccato Etude" of Rubenstein, was magnificently rendered by Miss Helena Hynes who also gave a fine rendition of the first movement of Concerto 21 by Mozart, the difficult orchestral accompaniment being played by Miss Cox upon the second piano—both these young ladies captured the gold medals for music presented by the Messrs. Nolan. Too much cannot be said in praise of the treatment these pieces received at the hands of the ladies mentioned—time, shading, but above all the intelligence of the interpretation is to be commended.

"Spanische Tanze" Nos. 1, 2, 3, by Moskowski received most intelligent treatment at the hands of Misses Kathryn Underwood, Marie Bayless, Bertha Neider and Helen Bowden.

The vocal numbers too betrayed great care upon the part of the teachers. The grand chorus "Estudiantina" by the senior vocal class with accompaniment by the popular mandolin club, was a great success and made a pretty stage picture. And the vocal trio "Heaven" by Smart was beautifully sung by Miss Agnes O'Donnell, soprano, Miss Agnes Marie Dodson, mezzo soprano, and Miss Kathryn Underwood, contralto.

Elocution was ably represented on the programme by the recitation of "Flying Jim" by Miss Cora Brown, whose proficiency in the art was a revelation to her friends.

Miss Georgia Dobyns in her address to the graduates made a favorable impression.

The programme concluded with the "March from the Priests" from "Athalie," for two pianos, by Misses Bertha Neider, Mabelle Boswell, Helen Bowden and Jennie Theis.

QUIETLY WEDDED.

A STRANGER.

And They Took Him in—He Rewarded Them by Taking a Silk Muffler and Gold Pin.

Mr. and Mrs. Thomas Jett, who moved here from Bracken County not long ago, and are now living on Mr. W. W. Ball's farm in the East End, had an experience a few days since that is calculated to cause them to regard all strangers with distrust hereafter.

A well-dressed young man, who gave the name of Henry Ramsey, applied to them one evening for lodging for the night, which was granted. Shortly after his departure the next morning Mrs. Jett missed a fine silk muffler and valuable gold pin.

The presumption is that Mr. Ramsey could give the present whereabouts of the articles, but the point is to locate him. Mr. and Mrs. Jett have not seen him since he left.

The pin was highly prized by Mrs. Jett, as it was a gift from her sister. She thinks Ramsey probably disposed of the articles in this city, and if such is the case she hopes the present owner will return the pin.

SENSATIONAL MURDER.

A Young Man's Sweetheart Looked Up Charged With Murder.

WHEELING, June 20.—One of the most sensational murder mysteries that has occurred here for a long while is just now exciting the Bellaire, O., community, opposite this city. Neil McCabe, a prominent young man, was found dead by the roadside and investigation showed that he had been murdered. His sweetheart, Miss Tilly Cutshaw, who was last seen with him, and who tells a peculiar story, is now in jail charged with complicity in the crime.

The girl says she was walking with McCabe and that he suddenly took ill and lay down on the ground. She says she then covered him up with his coat and left him, supposing that he would soon be all right. When she next heard of him he was dead. The impression is that the young lady knows more of the murder than she has told and that McCabe was killed by a rival for her hand, in her presence, and that she is trying to shield the murderer.

PEACE REIGNS IN VENEZUELA.

President Crespo Confident That the Trouble Is All Over.

NEW YORK, June 20.—Mail advices from Caracas indicate that an area of peace and tranquility has at last dawned upon Venezuela and Joaquin Crispien, now the constitutionally elected president of the republic, confident of the stability of his government, has magnanimously submitted to congress a proclamation granting pardon to those who once strove to destroy the constitution and annihilate its brave defenders.

This act which has just been approved by the national assembly allows all Venezuelans to return to their native country whatever may have been their part in the late conflict. Even those who bore arms against Crespo himself are forgiven and invited once more to take up the pursuits of peace and work for the benefit of their common country.

CHINESE EXCLUSION ACT.

But Little Money Remains For the Enforcement of the Law.

WASHINGTON, June 20.—Inquiry at the treasury department discloses the fact that about \$15,000 remains for the enforcement of the several Chinese acts. On July 1 the new appropriation of \$50,000 becomes available, so that aggregate fund available for the carrying out of the Chinese exclusion act, including the Geary law on July 1, will be \$65,000.

As announced by Secretary Carlisle the policy of the administration will be, in view of the lack of funds, to rid the country of all Chinese who have entered unlawfully in violation of previously existing laws, before endeavoring to send out Chinese who came in unlawfully but are now under the ban of the Geary law because they failed to comply with its requirements of registration.

AN APPEAL TO FARMERS.

Kansas Coal Miners Are in Destitute Circumstances.

TOPEKA, June 20.—S. M. Scott, state lecturer of the Farmers Alliance is out with an appeal to the farmers of the state to come to the assistance of the striking coal miners. He says that anything will be acceptable, money, clothing or provisions. Mr. Scott declares that the coal companies have decided to starve the miners into submission and that they will succeed unless help is afforded.

The governor and state officers, all Populists, are assisting State Lecturer Scott. The miners have declined all offers to settle the troubles by arbitration and have refused an offer of 10 per cent advance in wages by the mine owners. No attempt has yet been made to fill the strikers' places with miners from the outside.

Will Fight For His Place.

CHICAGO, June 20.—George M. Webster of New Mexico, appointed by President Cleveland to succeed Richard Mansfield White, who was removed from the national commission, arrived in the city yesterday to attend the meeting, which begins on Saturday. It is probable that there will be a lively time before Mr. Webster gets his seat. Mr. White does not yet believe that he has been properly removed or that anybody but the national commission itself can remove him. He has announced that he will make a contest for his seat with all the power that is in him.

Mrs. Grant and Mrs. Davis.

NEW YORK, June 20.—The disagreeable weather of the past two days has kept both Mrs. Jefferson Davis and Mrs. U. S. Grant confined to the hotel. Neither has been away from the house since Sunday until yesterday evening, when Mrs. Grant went out for a short drive. Mrs. Grant and Mrs. Davis meet frequently and their intercourse has been of the most friendly character. Miss Winnie Davis arrived here from Chicago.

Bank Doors Closed.

LOCK HAVEN, Pa., June 20.—The doors of the State Bank of Lock Haven are closed. A notice was posted on the door which read as follows: "By order of the board of directors this bank has been closed for the purpose of going into liquidation. Depositors will be paid in full." People here have full confidence in the solvency of the bank.

Suicided in a Hotel.

PERTH AMBOY, N. Y., June 20.—Frank Applegate of this city committed suicide in the Amboy House. When found a revolver was clasped in his right hand and there was a bullet hole in his temple. He had been drinking heavily of late, and it is believed he became despondent. He leaves a widow and three children.

Financially Embarrassed.

NEW YORK, June 20.—Banning, Bissell & Company, importers of dye woods, at 80 Reade street, has allowed a judgment to be entered against them for \$28,304.48 in favor of the Tradesmen's National bank on a demand note dated June 27, 1893, for money loaned.

Mr. JAS. R. SPURGEON, the colored lawyer of this city, delivered an address at Georgetown, Ky., a few evenings ago.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A 25c. package makes 5 gallons. Be sure and get Hires'.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would alone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.
